

**Finished Apps** 

**Reported Flutter Issues** 

#### **SUMMARY**

## Seasoned software engineer with 8 years of experience, specializing in

Flutter development and user centric app design since 2019. Educated in Artificial Intelligence, my career spans from web development to founding Goldee in 2012, where I led diverse teams across software, hardware, design, and marketing. Based in Mérida, Mexico, I have collaborated with U.S. companies.

#### Robo 1.5 Project & Capitalize Project: Contributed to feature development, debugging, and performance improvements.

350k+ reviews

SLO (Service Level Objective) Compliance: Optimized code to ensure adherence to performance and reliability targets, ensuring rigorous error handling. **Testing & Code Quality:** Unit, widget, golden, and integration tests.

CI/CD: Worked with GitLab pipelines, enforced SonarQube benchmarks, and actively

participated in code reviews.

State Management: Provider

IAP, background use, In-App Review
